CLC France
L'Oréal, BUL, Institut Merieux, etc.

With ambitious goal of creating impact

2016-18

- Creating 165 start-ups and launching another 160 new services and products
- Having 1 million students taking part in educational online programmes per year
- Incubate approximately 340 new business ideas

Entrepreneurship training, global network

Recent examples:

Opportunities July-Aug:

- GE-Oxford Summer School on rare cancer
- Transition Fellowship by Imperial College & Oxford University
- Innovation and Business Creation Summer School, IESE
- Big Data for Healthy Living Summer School, European Scientific Institute, Switzerland
- Aging Brain summer school, Groningen
- Entrepreneurial Introductory to Translational Research

Access to the best domain experts

Int'l matchmaking events, April 2016 Warsaw, 100 participants:

Main platforms:

- 40 new innovation project opportunity every year
- Regular thematic workshops (e.g. Healthy Brain, Big Data)
- Market coach network
- Own database and evaluation of Test Beds & Living Labs
- Own staff to direct start-ups to the best experts or infrastructure

Proven platform for global exit

Own healthcare incubation by Yes!Delft, 4th best incubator in Europe,

Other opportunities:

- GoGlobal (€150k)
- GoEurope (€50k)
- VC network
- Top university incubation programs

180 successful start-ups per year in the past!

First year of operation in Hungary: Helping start-ups

Experiences:

- Industry involvement in jury as distinctive feature
- Scouting through InnoStars Partners was most efficient
- Skill training was important to close the gap
- Winners agreed to spend the award on network building and integration into EIT Health

10

Which chances and risks do a patent have?

Chances

- Control over patent and invention
- Reputation: Innovation and stability -can give a start-up a higher valuation
- Monitoring competitors through their patents

Risks

- Application process expensive
- Maintenance expensive due to annual fees;
- Small companies and start-ups have more difficulties enforcing patent infringements by large companies because of high legal expenses and lawyer costs
